Consult the Canon Service Center for information on plug adapters for overseas use. Playback on a TV Screen. This product is designed to achieve excellent performance when used with genuine Canon accessories. The effective usage time of the battery pack may decrease when recording in cold surroundings, when using the brighter screen settings, etc. This mark identifies genuine Canon video accessories. When you use Canon video equipment, we recommend Canonbrand accessories or products bearing the same mark. Exif Print is a standard for enhancing the communication between camcorders and printers. Errors and omissions excepted. NATIONAL HEADQUARTERS 6390 Dixie Road, Mississauga, Ontario L5T 1P7 CANON CANADA INC. And Canon digital video camcorders are no exception. Canons entrylevel digital camcorders are designed to deliver the latest in style, features and advanced technology at a most affordable price. Starting with the exclusive Genuine Canon 48x Advanced Zoom, which combines the legendary Canon lens optics with Canon's marketleading DIGIC DV image processor to deliver a full range of image quality and more flexibility when youre shooting. The ZR950 is specifically designed to make it easier to capture great video, including a CCD image sensor, Widescreen LCD with a Soft LCD video light, MultiAngle Remote, Quick Start, Joystick control, Level and Grid Markers and more.

The ZR950 is the top of the line of ZR camcorders. This latest addition to the ZR family also includes an array of features that turn your camcorder into a digital still camera, including 9 Point AiAF Auto Focus, Progressive Photo, Simultaneous Photo Recording, Special Scene Modes, and Image Effects. All this comes together to deliver brilliant video and digital photos that you can easily share with family and friends. Easy to use, great looking and terrific value it is the perfect choice for capturing all of lifes precious memories. Dont be fooled by the USB port though. It is only used to transfer picture files, NOT video. There is a separate fire wire port for that. It takes nice video and has a decent mic for picking up audio. In a high volume setting like recording a live band it doesnt hold up very well. The audio get quite distorted. The battery lasts about as long as a 60 minute tape, so if

you have a 90 min tape dont expect to use it in one taping session, unless you can find and extended battery. Overall these are things I wish I was able to find in other reviews, but never saw them so I figured Id share. I plan on getting a different cam eventually. It has a video and still picture capabilities. The ZR 950s size is perfect for carrying and the battery has a pretty good lifespan. My only complaint is that I dont have one. Overall, Id recommend the camcorder if youre ready for capturing the action of life. It has great stability, zoom, focus, and is userfriendly I bought it to use in our church where we record our services. I highly recommend this camera on ease of use. Please try again. Please try your search again later. These easyto use MiniDV camcorders feature Genuine Canon Optics in an affordable yet ultracompact and sleek design that will deliver the high level of performance youve come to expect from Canon. Canon ZR950 Highlights Genuine Canon 48x Advanced Zoom Now you can capture true widescreen 169 video with stunning image quality from any distance all the way up to 48x. Canons exclusive Advanced Zoom system combines Genuine Canon Optics with Canons proprietary DIGIC DV Image Processor to let you seamlessly zoom both wide and long, retaining optical quality throughout the zoom range. 1.07megapixel CCD image sensor Whether youre shooting video or photos, you will benefit from the camcorders razorsharp CCD Image Sensor. Quick Start Instead of powering off your camcorder between shots, simply press the Quick Start function to put the camcorder in standby mode. Quick Start considerably reduces the power consumption of the battery and allows the user to return to recording mode in less than a second, so youll never have to miss another special moment. Widescreen HR recording The ZR950 records true widescreen for picture perfect video. Canons image processing system uses the entire width of the image sensor, capturing a big picture in true 169 widescreen so no one and nothing is left unseen. And Canon camcorders take advantage of more pixels to give you amazing quality. 2.7inch widescreen LCD A widescreen LCD lets you see exactly what your camcorder is recording, and what your TV will display later. Image stabilizer Shoot rocksteady video even when youre at maximum telephoto without a tripod. It is even effective while panning or zooming. LCD video light Shooting in low light situations has never been easier with Canons New LCD video light. The next time you are using your ZR950 in a dimly lit room, simply flip over the LCD screen to face your subject and activate the video light function.

A soft light emanating from your LCD illuminates the area in which you are shooting, allowing you to get high quality video even in less than ideal lighting conditions. Joystick The joystick makes using the camcorder easier than ever. You can control playback, focusing, exposure, and menu options from one convenient place. Multiangle wireless remote Canon gives you even more control and versatility by mounting the remote control sensor on the ZR950s LCD screen. Now you can activate numerous camcorder functions, when using the remote control, from any angle that the LCD turns. DIGIC DV image processor Video and photos require different image processing. Unlike other manufacturers. This results in video and photos with exceptional color and clarity. Smooth zoom control With this innovative feature, you can always be sure of smooth, steady, professional looking zoom shots. Simply select one of three preset zoom speeds. You can also select variable so you can control the speed manually. Level Shot and Grid Markers Its easy to keep your ZR950 level for more professional looking video. Simply press the Level Shot Control button, and a horizontal marker appears in your viewfinder. Then line up any horizontal lines in your shot to the marker and you know your camcorder is level. The Grid marker is also very convenient for setting up the special balance in your shots. And since background colors vary, you can select from two line colors to make the lines easily visible. Built in lens cover A builtin lens cover gives you the ability to protect your Canon video lens without ever having the inconvenience of a dangling lens cap thats easily lost. Still

image recording Capture stunning photos in 4:3 aspect ratio to an SDHC card. Advanced Photo Features A variety of features allow you to capture great photos. 9 Point AiAF Bring offcenter subjects into sharp focus. Histogram display With just one push of a button, the brightness information of a still image is revealed.

This allows you to monitor image quality, so you can make adjustments to improve the next shots. Image Effects Choose from the following effects to add a creative flare to your photos Vivid, Neutral, LowSharpening, and Soft Skin Detail. Special Scene Modes A wide selection of automatic exposure modes makes it easy to capture great video or photos under any condition. Choose from Portrait, Sports, Night, Snow, Beach, Sunset, Spotlight, or Fireworks. SDHC memory card slot Capture your photos and short movie clips directly to either a standard SD card or a highcapacity SDHC card. This allows you to use cards with a capacity of 2GB or larger. Photo Features A variety of features allow you to capture great photos. 9 Point AiAF Bring offcenter subjects into sharp focus. Progressive Photo Reduces blurring so you get crisp photos. Playback Zoom Max 5x zoom Direct Print Connect to any PictBridge compatible printer Special Scene Modes A wide selection of automatic exposure modes makes it easy to capture great video or photos under any condition. Image Effects Choose from the following effects to add a creative flare to your photos Vivid, Neutral, and Soft Skin Detail. 9 selectable languages English, Spanish, French, Italian, German, Russian, Simplified Chinese, Traditional Chinese, Japanese Oneyear parts and labor limited warranty Canons camcorder limited warranty provides protection long after other manufacturers. BR 5.0 out of 5 stars I used the camera on vacation in Oregon and Indiana. Its sound is great, its zoom is amazing. I have no regrets over the purchase. I did need some help connecting it, and called their 800 number, and they were equally helpful also a pleasant surprise. I realize the markets are constantly changing in terms of technology. But for this camera, it will last me for years assuming it lasts for years. But its really nice, and Ive already made several DVDs with it. Now Id like to upgrade my Mac. Not sure this product came with a good battery. I think it was an old one, i.e. original that sat for a long time. Will probably have to buy a new battery in short order. Would also liked to have received the manual with the product, as well as a box. Got neither. This camera looks just about the same as my tenyearold video camera. i.e. exact same model that I bought brandnew in 2009. Not a huge problem unless you watch recorded video on a BIG screen. The dot was the size of a pencil eraser. Canon paid for shipping both ways and repaired it perfectly. no questions asked or money for that matter. And it was done within 10 days. By the way this camera takes great pictures on an SD card uses USB to transfer. Takes grate video on a miniDV tape yes tape. The video is transferred via firewire. I LOVE THIS CAMERA. Canon is wonderful to work with. The camcorder works perfectly. The price was extremely reasonable. I especially like the fact that the seller was willing to give a 30 day guarantee. Love it, great zoom and awesome sound and picture quality, easy to use and great price! This camera works well very happy with it. Post your question here in this forum. Page 1 Showing 119 of 19 reviews Sort by Most Relevant Most Helpful Most Recent Oldest Highest Rating Lowest Rating Most relevant reviews info HedleyLamarr HedleyLamarr Rated 4 out of 5 stars One of the best DV cameras for the price Posted 11 years ago. HedleyLamarr This is a nice camera overall, and can still compete with the newer cameras with Flash or hard drive memory. The price is also a good selling point as well. The size is perfect and is light yet not cheap feeling. The zoom is nice and the picture is nice in multiple environments. The picture is dim when inside or in low light conditions, though. But for capturing family outings and events this camera does the job. Some disadvantages are that the camera does not default to widescreen, and the picture quality is set to the lower level to conserve battery level, so you need to configure the camera before using. The battery life is not that great, so you will need multiple batteries or buy a larger one.

Also, if you live in humid climates, the condensation will cause the camera to shut down. There are sensors in the camera that will detect the moisture to prevent damage. While this is a nice feature to protect the camera, once this happens the camera will not turn back on for a long time. The manual explains this in detail, so this is no surprise to them. It has to do with the cassette mechanism, so this is where the flash or hard drive may be better. But overall this is a nice camera that will serve your purposes until you can get a better camera. I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment SuperGeek69 SuperGeek69 Rated 4 out of 5 stars Good not great Posted 12 years ago. SuperGeek69 I replaced my Sony HC28 with the ZR950 when it broke. First, the video quality in good light is very good, I really notice good quality in moving subjects, the 1MP really shines here. However, low light conditions lead to grainy material. The still images seem to be a novelty. It only takes 1MP stills so don't expect much here except for 1MP quality pictures. Grainy, blurry and not many variables to fine tune. If you don't need the still feature, I recommend the ZR930, it has the optional external mic jack so you can have better quality sound and no motor noise, but you have to carry the mic around which defeats the purpose of having a point and shoot camera. With that said, the audio quality is what you would expect, decent. The motor noise is minimal and I really have to listen hard to hear it so I am happy with that. The camera is a bit bulky and not quite as comfortable as the HC28, but the button placement is about equal. The LCD screen is large and the menus make sense. The battery is more flush with the camera's body than the HC28. For the price you get a good camera, not great. I would give it more stars if it had better low light performance, but that seems to be an issue with cameras in the price range.

I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment LoveTech LoveTech Rated 4 out of 5 stars Think no more. Posted 12 years ago. LoveTech This is a solid camera for a great price. Has options for SD cards for still photos. Native wide screen support and decent battery life. Works great with iMovie. Still photos could be higher resolution, but this isn't meant to be a digital camera replacement. Pros Great video, great 48x advanced zoom, looks great, ease of use and Vista ready. Cons None found. This is one of the best cameras on the market currently in this price range. Great video resolution and the ability to take photos as well. I would recommend this to a friend Helpful 1 Unhelpful 0 Report Comment Jimla Jimla Rated 4 out of 5 stars Pretty Good Posted 12 years ago. Jimla I purchased this a few weeks ago to be used by students for a project. It was really easy to use and the quality was very good. The major problem was that if you want to edit, you have to connect via firewire. Most of the new machines have this, but if you have a pc or laptop that is a few years old you'll have to make another small investment. Sony is the only brand that allows you to edit via a usb cable. Other than this issue, you really can't go wrong with this camcorder. I

would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment TylerTX TylerTX Rated 2 out of 5 stars dissatisfied Posted 12 years ago. TylerTX I purchased this product to replace our previous camcorder. I have only had the camera for a few days, but based upon my usage so far I am disappointed. Setting up the camcorder for use, i.e. setting the time, etc. I am a woman with small fingers and I had great difficulty navigating with the joy stick. I expect it will be near impossible for a man. I also found the zoom feature to move too quickly while filming. It makes the video look like it was poorly filmed. If I had it to do over again, I would not purchase this camera.

I would look for a camera that is more user friendly for those of us who are amateur photographers and are mostly interested in recording our childrens childhoods. No, I would not recommend this to a friend Helpful 2 Unhelpful 0 Report Comment NITECLUB NITECLUB Rated 4 out of 5 stars BUDGET CAMCORDER Posted 11 years ago. NITECLUB This Camcorder is a great bargain for what you get. Its easy to use and only has a couple of drawback; doesnt show good in low light and package does not include a DV cable. I would recommend this camcorder to someone who is operating on a budget for something that give you memories without breaking the bank. I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment filmN00b filmN00b Rated 3 out of 5 stars Great for novice. Posted 11 years ago. I do not recommend this camera because of the 1mp quality, but I believe the Canon lens makes up for that. I love it. great for a yyoung persons first camcorder.STICK WITH CANON I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment CamManStan CamManStan Rated 4 out of 5 stars A Good Little Camera Posted 12 years ago. CamManStan This was a good little camera that is easy to use and is fun to use. It is small and compact so its easy. The zoom is great really good zoom very clear and smooth it quickly focuses and is good for what ever one might use it for. I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment Friendlyshopper84 Friendlyshopper84 Rated 4 out of 5 stars Great Camera Posted 11 years ago. Friendlyshopper84 Fun way to remember your families memories. Also great for the price paid. New more advanced camcorders are out, but if you only need something to record a small child it is great. I would recommend this to a friend Helpful 0 Unhelpful 0 Report Comment jess4lo jess4lo Rated 5 out of 5 stars Great for an amateur and Macs Posted 11 years ago. Have had it for a few months and used it for a number of occasions already.
