Sie akzeptieren unsere Cookies wenn sie fortfahren diese Webseite zu nutzen. Wir alle erleben tiefe Einschnitte in unser freiheitliches Leben. Das Ende der Einschränkungen ist noch nicht absehbar, genauso wie auch die Langzeitfolgen für die deutsche Volkswirtschaft. Eine Krise, wie sie kaum jemand für möglich gehalten hat. Wo möglich, arbeiten unsere Mitarbeiter vom Home Office aus. Wo dies nicht möglich ist, befolgen wir konsequent strengste Hygiene und Abstandsregeln, wie von den zuständigen Stellen empfohlen. Zumal wir auch nach Lockerung der aktuellen Schutzmaßnahmen mit einem erhöhten Aufkommen an Bestellungen und einem sehr großen Bedarf an Material rechnen. Wir schaffen das! We all experience deep cuts in our liberal life. The end of the restrictions is not yet in sight, just like the longterm consequences for the German economy. A crisis that hardly anyone thought possible. Wherever possible, our employees work from the home office. Where this is not possible, we consistently follow the strictest hygiene and clearance rules, as recommended by the responsible authorities. Especially since we are expecting an increase in orders and a very high demand for material even after the current protective measures are relaxed. We can do it! It has been developed to meet international standards and to satisfy specific international requirements at the highest level. As a standard the panel already provides a slot for an Imodule. That means an analogue or ISDN telephone modem can be plugged into the panel. By using the NSC configuration software the panel can be configured by remote access control. In addition, on the card location of the Imodule the new NSC web server can be plugged in. Then you have access to the "Solution F2"

panel via any common internet browser. All inputs and outputs are programmable. And for some more comfort there are soft keys below the LCD module and programmable push buttons for often used operating functions. <http://dayalindia.com/userfiles/92g-training-manual.xml>
